

“Brilliant storytelling...you’ve hit the nail on the head by focusing on the collective broken heart!”

—David Krieger, founder, The Nuclear Age Peace Foundation

The World is Broken-Hearted

World Peace begins in the healed heart of each one of us.

The Global Wisdom Council asks:

Can we heal our collective broken heart?

“Half of all Adults will die of heart disease... [broken hearts]”

Medicine of the Rainbow

The Mystical Path to Healing the Ancient (Collective) Broken Heart

an evening of storytelling, prophecy and healing

Almost all ancient indigenous cultures presaged this period of time — the turning of the ages (1987-2012) — as part of a larger Rainbow Prophecy or evolutionary Path that foretells a global awakening and healing that will usher in the fifth world of peace and illumination. Join Eco-Spirit healer, **Heather Foxhall, on Sunday October 1st 2006 at 7:00 pm**- as she shares the medicine of the rainbow in order to heal, finally heal, our ancient collective broken heart.

September 11, 2001 was part of the lancing of an infected collective wound — the Great Purge — the beginning of the acceleration of an opportunity for global healing. The poison (our collective shadow) is running out in all directions.

It’s running out of our governmental and corporate institutions, as well as each and everyone one of us.

Underneath the poison—the veneer of fear, rage, violence and terror — is an enormous psychic well of accumulated sorrow that has never been fully acknowledged, let alone grieved by us as a collective family. It is this inherited psychic well of sorrow— this collective broken-heartedness — that is fueling the rage — the violence — the terrorism in our world.

Come heal your piece of the collective broken heart, healing the ancient split between masculine and feminine. Come do your greatest service for yourself and the world. Come claim your birthright on the Global Wisdom Council. Come for the healing. **The time is now for us to finally heal ourselves.**
